OFFICIAL RELEASE

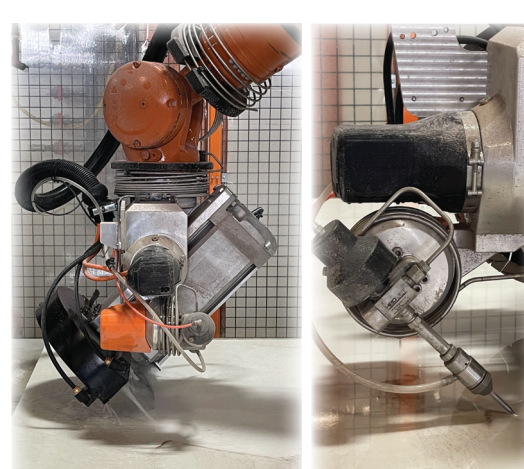

M ROBO SAWJET SERIES MITERING ROBOT

- AVAILABLE IN SINGLE & DUAL TABLE CONFIGURATIONS
- UPGRADE FROM SINGLE TO DUAL TABLE IN THE FUTURE

- WATERJET ELIMINATES ALL BLADE OVERTRAVEL INCREASING YIELD BY 10-20%
- SAVE 3-4 HOURS PER SLAB BY CUTTING SINKS, ARCS, FAUCET HOLES & ALL OTHER NON-LINEAR CUTS

The **M SERIES** Robo SawJet is an advanced cutting machine that offers full mitering capabilities in a single unit, accommodating both sawblade and waterjet mitering. With a generous saw and jet mitering envelope measuring 75"x135" & full 90-degree table coverage of 90"x144", it handles super jumbo slabs effortlessly. The machine features efficient programming through Alphacam with BACA's custom toolbar, precise multi-point slab thickness adjustment, and a remarkable auto-calibration process, completing full calibrations in under 5 minutes, all while maintaining the low maintenance and high reliability of the original Robo SawJet. And just like the original Robo SawJet, the **M SERIES** also offers the flexibility to start with a single table model and seamlessly upgrade to a dual-table configuration doubling the capacity of the machine when your production demands grow.

SAW BLADE & JET MITER TOTAL PROCESS CAPABILITY

STRAIGHT 8

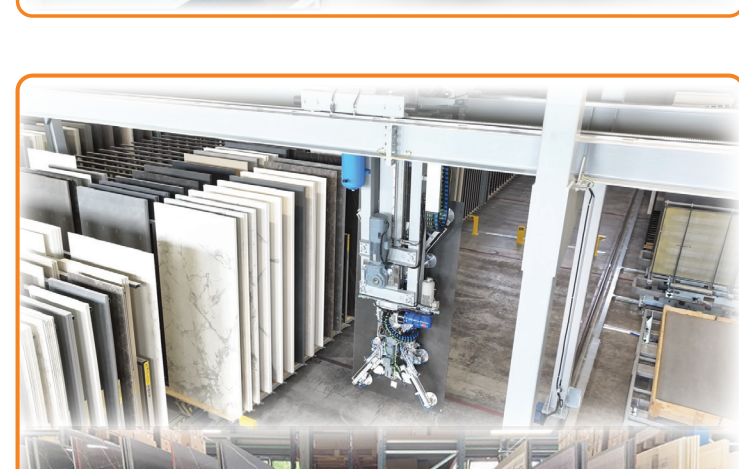

- 8 POLISHING HEADS WITH 2 CHAMFER POSITIONS
- OPTIONAL SLAB RACK TO SUPPORT LARGER PIECES
- FEED RATES UP TO 87 IPM (3CM) & 98 IPM (2CM)

PALADIN CNC ROUTER

- 24,000 LBS OF FULLY WELDED STEEL
- PRECISION BALL SCREWS THAT MAINTAIN ACCURACY
- 44 POSITION TOOL HOLDER

AUTOMATED TITE RACK

- MANAGE REMNANTS & INVENTORY AUTOMATICALLY TO INCREASE MATERIAL UTILIZATION
- INTEGRATED PHOTO STATION & OPTIONAL SLAB LOADING ONTO SAW

SEMI-AUTO TITE RACK

- REDUCE FLOOR SPACE BY 75%
- LOADING / UNLOADING CAN BE DONE QUICKLY & SAFELY

COMANDULLI®

North America

- PRODUCE EASED EDGE AT 2' PER MINUTE
- EDGE DETAILS: FLAT POLISH, EASED EDGE, BEVEL, FULL BULLNOSE, HALF BULLNOSE, SHARKNOSE, & MANY MORE
- CONTINUOUS PROCESSING FOR MAXIMUM THROUGHPUT

MITER X

- INCREASE CUTTING CAPACITY ON MAIN SAW
- DECREASE LABOR BY CUTTING MITERS CONSISTENTLY
- MAKE TIGHTER VEINS BY USING LESS MATERIAL

PURE

WATER FILTRATION SYSTEM

- UPGRADEABLE IN FUTURE TO CRYSTAL-CLEAR WATER
- CLOSED LOOP WATER SYSTEMS
- AVAILABLE IN : 80, 120, 180, 240 & 320 GALLONS PER MINUTE

WEDNESDAY:

SCHEDULE NOVEMBER 8 & 9

12:00-1:30 PM

REDEMPTION STONE SHOP TOUR AND FOOD TRUCK LUNCH
37521 S GROESBECK, CLINTON TOWNSHIP, MI 48036
OWNER BOBBY FINN WILL GIVE A DEMONSTRATION "LET ME SHOW YOU HOW I PROCESS PORCELAIN EASILY WITH MY ROBO SAWJET"

1:30-2:00 PM

TRAVEL TO KUKA ROBOTICS NORTH AMERICAN HEADQUARTERS
51870 SHELBY PARKWAY, SHELBY TOWNSHIP, MI 48315

2:00-3:30 PM

PRESENTATION AND TOUR OF KUKA ROBOTICS NORTH AMERICAN HEADQUARTERS
PRESENTATION ON WHAT'S NEW IN ROBOTICS AND HOW TO ADDRESS THE LABOR SHORTAGE

3:30-4:00 PM

TRAVEL TO BACA SYSTEMS - 101 PREMIER DRIVE, ORION TOWNSHIP, MI 48359

4:00-5:30 PM

WELCOMING RECEPTION AT BACA SYSTEMS
NETWORKING AND A SNEAK PEEK TOUR OF BACA SYSTEMS
BEER, BURGERS & SPIRITS

THURSDAY:

8:00-8:30 am
REGISTRATION/ NETWORKING/ COFFEE/ PASTRIES

8:30-9:00 am
OVERVIEW OF EQUIPMENT AND BREAK OUT INTO GROUPS

9:00 am-Noon
LIVE MACHINE DEMOS IN SMALL GROUPS

Noon-1:00 pm
LUNCH AND LEARN
HOTEST TOPIC IN THE INDUSTRY
PRESENTATION BY JIM HIEB PRESIDENT OF NSI
· UPDATE ON CALIFORNIA QUARTZ BAN
· WHAT'S NEW WITH SILICA
· HOW TO PROTECT YOUR EMPLOYEES & BUSINESS

1:00 pm-3:00 pm
CONTINUATION OF LIVE MACHINE DEMOS

3:00 pm -4:30 pm
NETWORKING
